E-commerce Operations Team Leader | Last-Mile Delivery
Operations | Operations Analytics | Process Optimization |
Performance Improvement

Al Khobar, Eastern, Saudi Arabia

Summary

I am an E-commerce Operations Team Leader at Al Dawaa Medical Services Company LTD, specializing in last-mile delivery operations, operational performance management, and process optimization within a fast-paced e-commerce environment. I lead last-mile delivery operations with a strong focus on improving service quality, efficiency, and customer experience. My responsibilities include managing delivery teams, coordinating daily delivery execution, monitoring operational performance, and ensuring achievement of key delivery targets. I use a data-driven approach to analyze operational performance, identify improvement opportunities, and implement solutions that enhance productivity and scalability.

I focus on key operational metrics including On-Time Delivery (OTD), delivery success rate, cost efficiency (CPD/CPO), rider utilization, and customer experience indicators. My role involves managing delivery workflows through last-mile technology platforms, monitoring operational issues, coordinating with support teams for timely resolution, and providing feedback on system improvements to enhance delivery efficiency and team performance. I work closely with cross-functional teams and delivery partners to solve operational challenges, improve processes, and support continuous improvement initiatives across e-commerce delivery operations.

Key Areas of Expertise:

- E-commerce Last-Mile Delivery Operations
- Delivery Performance & KPI Management
- Operations Analytics & Reporting
- Process Optimization & Continuous Improvement
- Driver/Rider Team Management
- 3PL Delivery Coordination
- Cost Efficiency Improvement (CPD / CPO)
- Delivery System Monitoring & Optimization
- Root Cause Analysis & Operational Problem Solving

I am continuously developing my expertise in e-commerce logistics, operations excellence, analytics, and technology-driven solutions to build scalable and high-performing delivery operations.
